Chapter 1

Introduction

1.1 Why a virtual assistant?

1.2 Scope of the project

1.3 Expected results

Chapter 2

Natural Language Understanding

2.1 What is NLU?

2.2 How it works?

2.3 Advanced techniques

Chapter 3

Dialogflow

3.1 What is Dialogflow

3.2 Why Dialogflow

3.3 How it works?

Chapter 4

DOREMUS

4.1 What is DOREMUS

4.2 How is organized

4.3 How to integrate it in our project

Chapter 5

The bot

5.1 The architecture

5.2 Intents

5.3 The flow

5.4 Advanced features
